1 main banner

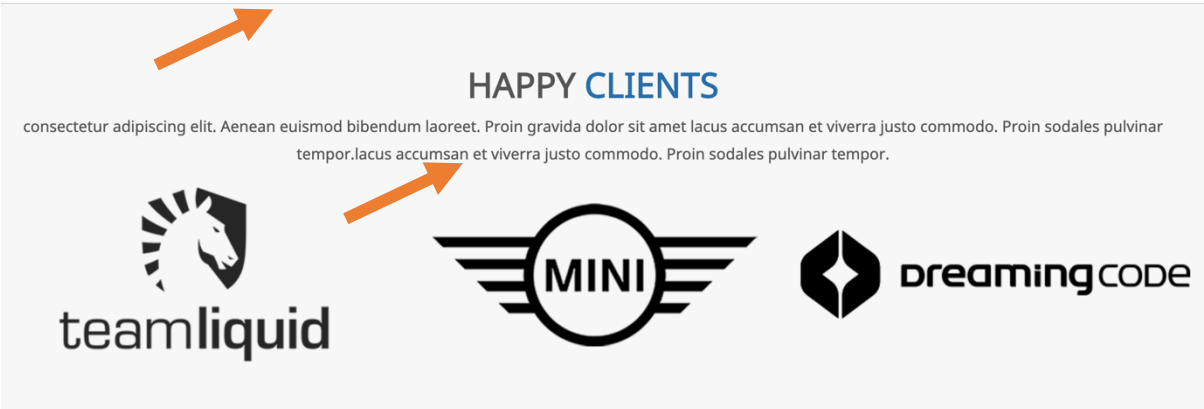
- Animation very fast going
- Background img (opacity) and text need to match with actual link
- See the below image.. there is a gap

2 heading make bold like actual design

3 All heading need to bold and sub heading also.

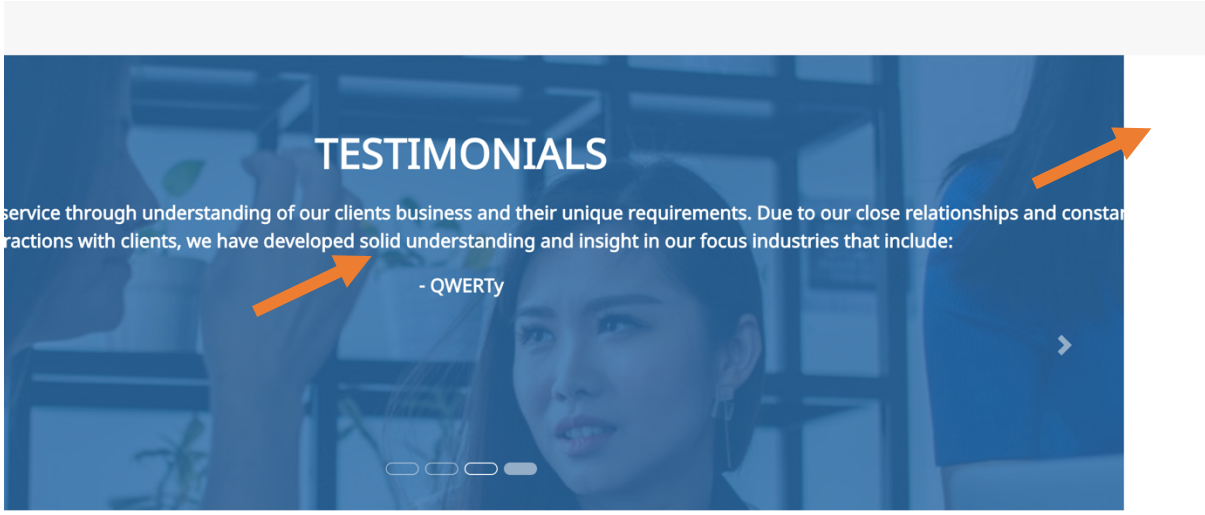
4 logos

- Running text doesn't match. Make proper (see the actual)
- Remove the top line
- Make the logo small and use 4 logos in row



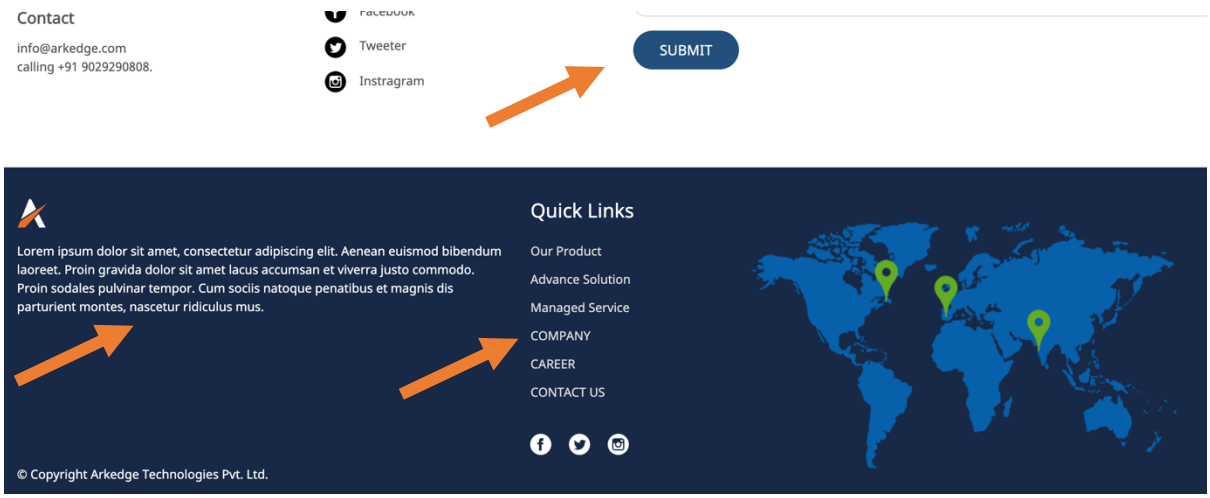
5 Testimonial

- There is a gap right side
- Make odd even text… not understaning test is moving or not



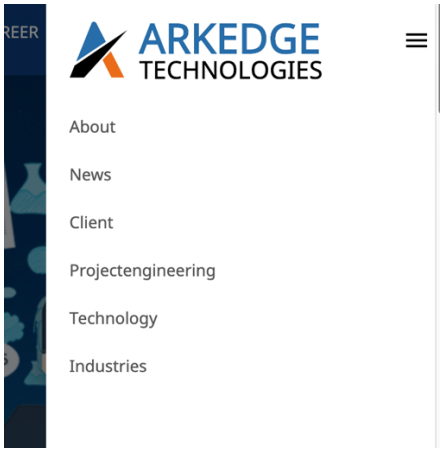
6 Footer

- Make button width more
- User hover effect.
- Add intro paragraph in text area..
- Links are odd even (some are capital and some are small)



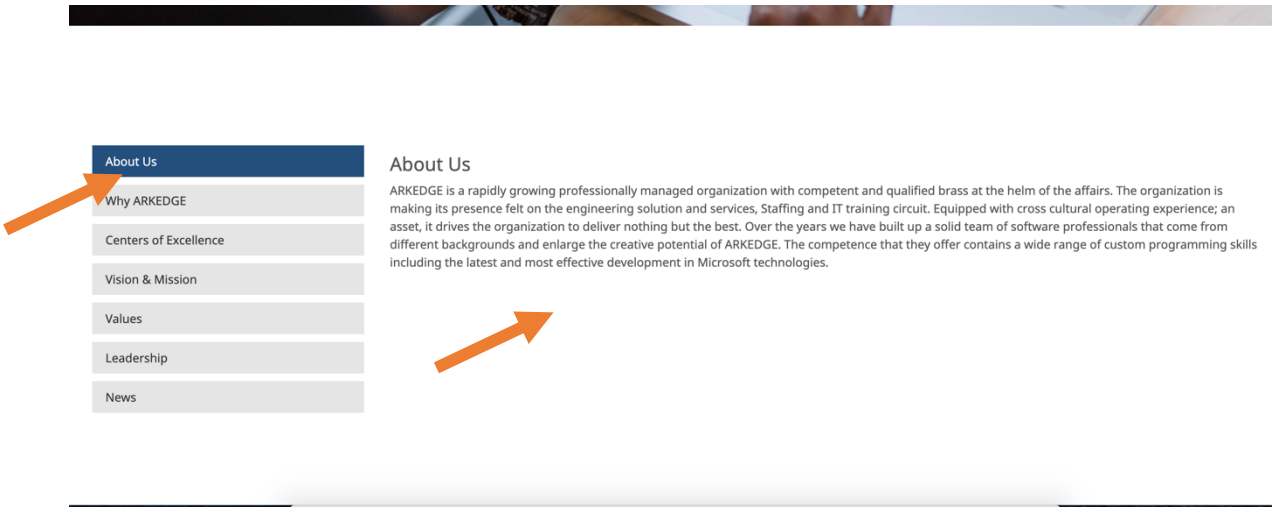
7 use below given link text.. with slide menu

Who we are (aboutus or company links is same)
Why ARKEDGE Technologies
Centers of Excellence
Vision and Mission
value of excellence
Our Leadership
Our Happy Clients
News and Event update
Testimonial - Client Speaks
Career - Work with Us

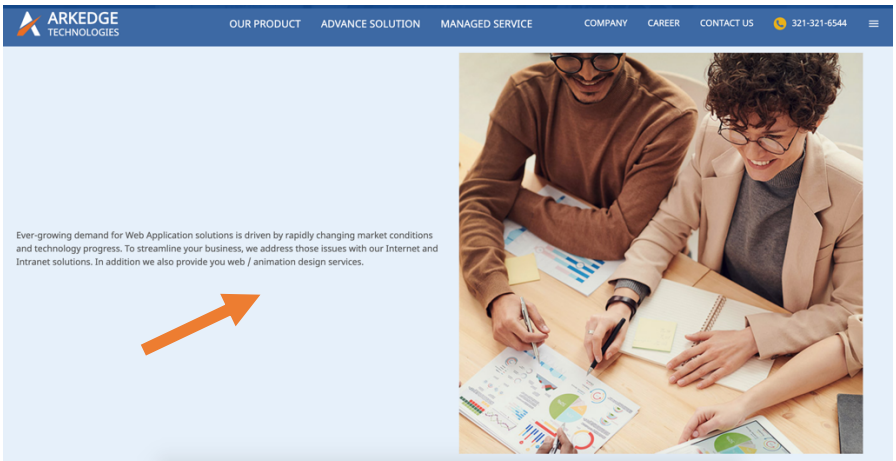


8 About us

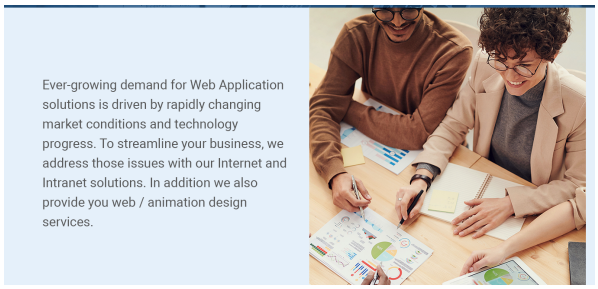
- Change the name **aboutus to company** (as in heading) and who we are link also go this page.
- Increase the height of link boxes (left side)
- About us date does not match with psd
- Too much gap in text and image area.



- Reduce the image size and make text like psd not running text.



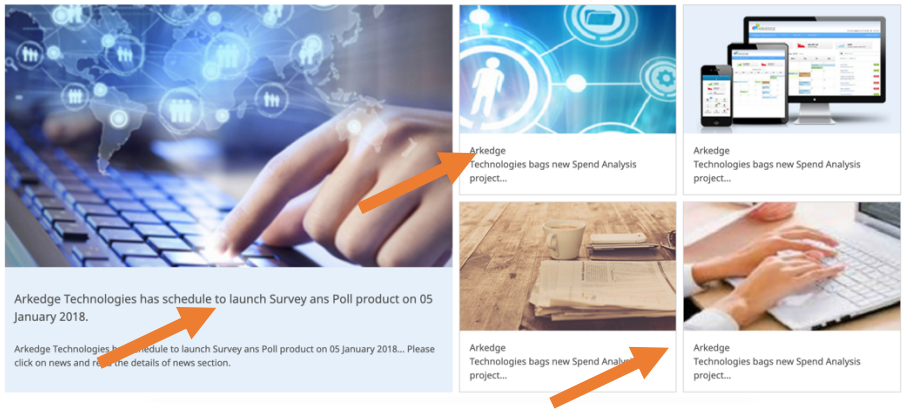
Like this



- See the below, make like this, info grahics uploaded in Gdrive.

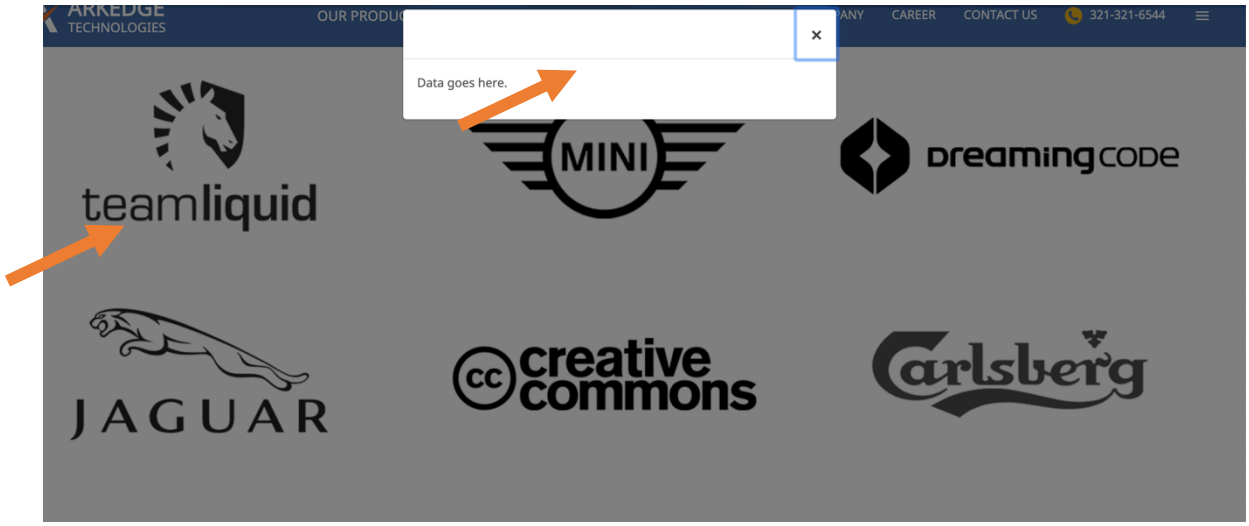
9 News

- Heading is missing



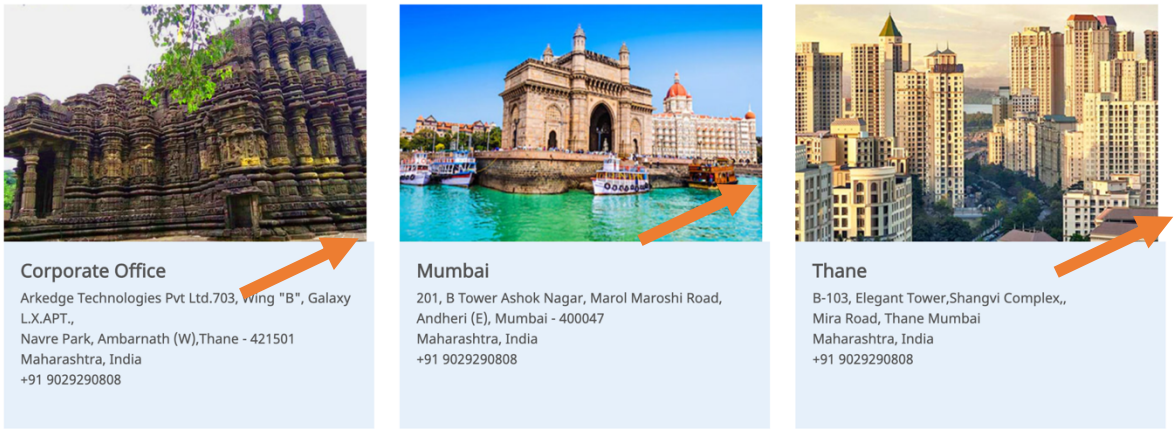
10 clinet page

- No date is coming in popup
- Make logo small size



11 – product enginneing page no icon as per psd
12 – industires page also same
13 – technology page – no tab highlight, text arrangement not proper

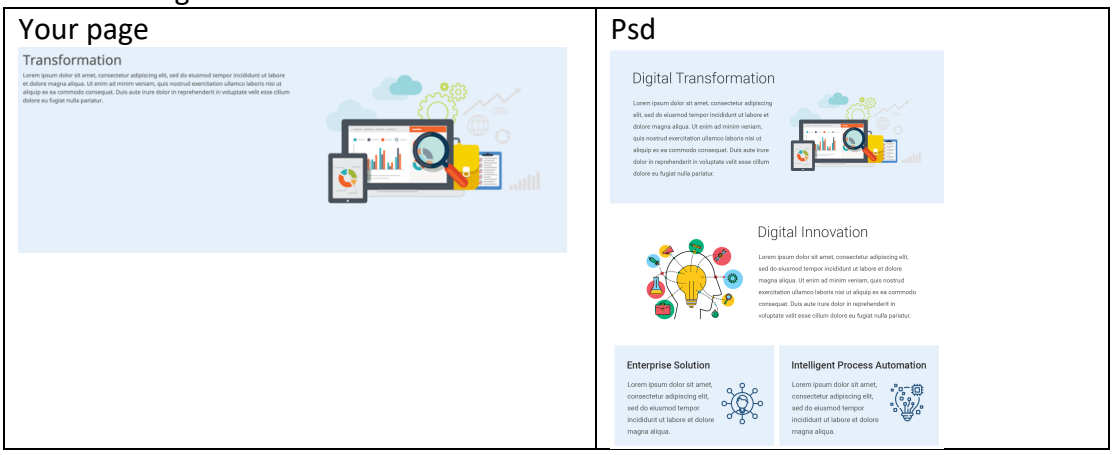
14 – contact page – miss match



-

15 carrer page – view details link not working, add pdf from actual website.

16 advanced solution page
- Tab link not highlighted
- Page not as per psd.. make text bigges
- Icon is missing



17- product page
- Use some dashboard imaegs in animation
- Make over on button, secondary button make line blue link only.
